

Climate Change Statement

At Horstman Defence System, we recognize the urgent need to address climate change and are committed to taking meaningful action to reduce our carbon footprint and promote sustainability. Climate change poses significant risks to our planet, our communities, and our business operations. As a responsible corporate citizen, we are dedicated to being part of the solution.

Our Commitment:

- **Reducing Emissions:** We are committed to reducing our greenhouse gas emissions through energy efficiency, renewable energy adoption, and sustainable practices across our operations.
- **Sustainable Practices:** We will integrate sustainable practices into our business model, including waste reduction, water conservation, and sustainable sourcing.
- **Innovation and Collaboration:** We will invest in innovative technologies and collaborate with industry partners, governments, and communities to drive collective action on climate change.
- **Transparency and Accountability:** We will regularly measure, report, and communicate our progress on climate action to our stakeholders, ensuring transparency and accountability.
- **Employee Engagement:** We will empower our employees with the knowledge and resources to contribute to our climate goals and foster a culture of sustainability within our organization.

Our Actions:

- **Energy Efficiency:** Implementing energy-efficient technologies and practices to reduce energy consumption and emissions.
- **Renewable Energy:** Transitioning to renewable energy sources to power our operations and reduce reliance on fossil fuels.
- **Sustainable Supply Chain:** Working with suppliers who share our commitment to sustainability and reducing the environmental impact of our supply chain.
- **Community Engagement:** Partnering with local communities to promote climate resilience and support environmental education and awareness.

We believe that by taking proactive steps to address climate change, we can create a more sustainable future for our business, our stakeholders, and the planet. Together, we can make a difference.
